

SASSOALLORO - SUPER TUSCAN

- ❖ Sassoalloro is the flagship wine from estate of Jacopo Biondi Santi in Tuscany. The Biondi Santi family essentially created Brunello by identifying and propagating the best clone of Sangiovese on their estate in Montalcino. They developed that selection into a unique clone of Sangiovese which is called BBS11 (Brunello Biondi Santi #11)
- ❖ Sassoalloro is 100% Sangiovese Grosso (BBS11), grown from cuttings from the original Biondi Santi estate, but now grown in the Maremma, the most western part of Tuscany.
- ❖ The price difference between the original Biondi Santi Brunello and Sassoalloro, which is created by the same family from the same clone, is hundreds of dollars to your customers!
- ❖ Sassoalloro is considered a Super-Tuscan because it comes from the newest part of Tuscany (the Maremma) where some of Italy's most expensive and best wine come from.
